

# Sony Ericsson Snap-on Speaker MS410

## Skip the size, keep the stereo sound...

Share the fun thanks to the powerful Snap-on Speaker Stand MS410 – the next generation in mobile speakers, following on from the success of over 10 million Sony Ericsson speakers sold to date.

This ultra-compact speaker stand delivers quality stereo sound and will add the wow factor to all entertainment, making music tracks sound like they are being played live. Just pump up the volume for a fantastic entertainment experience!

## Compact convenience to rock every party...

The MS410 will get any party started and blast out great tunes all night. It simply attaches to the Sony Ericsson Walkman™ phone and is like having a pocket sound system. At a mere 56g and at only 110 x 26 x 40mm, the MS410's lightweight size will amaze you with its power.

## Tune in and sit back...

The MS410 also features an integrated FM radio antenna to easily find a radio station, with amazingly clear reception and unbeatable stereo sound. Whatever the mood, it is so simple to choose any station for any mood or occasion.

## Smart speaker...

The MS410 is very clever – it has a unique free-standing feature that easily clicks onto almost any Sony Ericsson Walkman™ phone due to the integrated sliding mechanism. It is now possible to enjoy entertainment whenever, wherever – just snap and go.

## YouTube™ on the go...

The MS410 is more than a mini speaker system – it can also be a handy video viewing stand for YouTube™ clips. Place any Sony Ericsson Walkman™ phone which is YouTube™ enabled onto the MS410 to create a mini portable television – it is so simple.
